I give immense pleasure to share the 2018-19 Annual report with you. As I look back at the year gone by, I am filled with pride and appreciation for all that we have been able to achieve as a network. Leveraging our collective capabilities, we continued to add scale to our reach, addressing some of India's most pressing issues, truly making a lasting impact in the lives of the communities we serve. With the support of our corporate partners, volunteers and staff, we have crossed several milestones and have numerous achievements to our credit this year.

- The network achieved a robust growth of 40%, raising a total funds of INR 143 crs
- Our pan-India healthcare initiatives have improved health outcomes for close to 200,000 beneficiaries
- Our public health and disaster awareness campaigns touched the lives of 300,000+ people
- We contributed to a greener and cleaner environment by rejuvenating 19 lakes and planting 30,600+ trees, thereby creating a chain of positive outcomes for the communities
- Our education programs have helped more than 19,000 children to enhance their learning levels and be better prepared for further learning

In summary, the United Way India network has impacted close to a million lives across India. We are also pleased to announce the soon to be launched new UW chapter in Ahmedabad. This year was the first complete year for the United Way (UWI) national office being in operation with full capacity. Thanks to our CEO, Saleem Khan, we managed to on-board a stellar team—all of whom are specialists in their respective fields and domains. Two years of arduous effort by the Board Managing Committee (Atul Patel, Gulshan Sachdeva and Suneeth Katarki), supported in large measure by Shri Sunil Mehta, finally culminated in the signing of 'Operating Framework 2.0'. With this behind us, the network now has a well-defined, harmonized operating framework, to which all United Way chapters in India are aligned. The new framework is built on the spirit of oneness and trust, delivering on the commitment to our donors and the communities we serve. The implementation of the new operating framework has helped United Way position itself uniquely as a national partner of choice, helping us deliver impact at scale. Additionally, the year saw a continued scale-up of our national programs, 'Born Learning' (BL), focussed on early childhood development, and Generation United, which addresses youth unemployment. With a very successful pilot in Karnataka, BL gathered national scale and is now being implemented nationally through our network chapters, with more than 232 Anganwadi centres supported across 6 states, positively impacting more than 23,000 children and 20,000 indirect beneficiaries. Spearheaded by Manish Michael, our Executive Director from United Way Bengaluru (UWBe), BL is UWI's first successful 'Centre of Excellence' driven program, where UWBe is responsible for building national capabilities for the program through workshops, trainings and capacity building.

'Generation United' continued to forge new partnerships as we convened thought leaders and subject matter experts to share views and ideate on how this issue could be nationally addressed.

Moving forward, 2018-19 comes with a plethora of new initiatives planned, which will include launch of our 'Major Giving' platform—'The Rabindranath Tagore Society', to help us reach out to the growing pool of super high net worth philanthropists, who want to play an pivotal role in building a happy, healthy and inclusive India. With the completion of my term as Chairman, I feel extremely satisfied to be leaving a uniquely stable chapter partnership, and a dynamically growing network. I am delighted to be handing over the baton to a very distinguished and accomplished professional and a dear friend, Mr. Shailesh Haribhakti. I am confident that he will steer the network to even greater heights. My sincere gratitude and thanks to all the Local United Way Board Members and the teams, for their commitment and leadership in driving this phenomenal success. I would like to especially thank our donors and partners for believing in us and supporting our work so generously. Last but not the least, immense gratitude and standing ovation for our very competent CEO, Saleem Khan, without whom none of this would have been possible. His indomitable spirit saw the flag of UWI flying high each day.

As we continue to make bigger strides in 2019, let us come together and LIVE UNITED!

Sincerely,

Sunit Mehra
Chairman
United Way of India

Chairman
United Way of India
What a year it has been for us as I look back at all that we were able to achieve as a network! Thinking of the year gone by, I see a stimulating journey that was filled with exciting new partnerships, our continuously growing impact across the country, new challenges faced with confidence, the successes across our network initiatives, sturdy revenue growth and purposeful endeavors by our Local United Ways. It is with a sense of pride and gratitude that I share our Annual Report which showcases the impact of the United Way India network in the year 2017-18. This year we have focused deeply on leveraging on the collective capabilities of the United Way network in India in addressing some of India's most pressing needs in the development space, and truly making a lasting impact on the communities we serve.

As a network, we are proud to have reached out to close to 1 million lives, thanks to the ever-growing support of our corporate collaborators, NGO partners, government agencies, and the communities we serve. Collectively, we have ascended new heights and have grown significantly to appreciate our achievements this year. We have scaled up our impact considerably and have joined forces with close to 500 NGOs, which continue to implement our vision in some of the most challenging areas of intervention. To accomplish our overall impact, the network achieved a very healthy revenue growth towards the causes that we deeply care about – Education, Livelihood, Health, and Disaster Response.

Our health initiatives continue to serve those in dire need, providing them with health services and awareness while our education projects set their attention on the holistic development of children in the early childhood stage of their lives. Our livelihood and skilling programs on the other hand have been engaged in equipping the youth with vocational trainings to empower them with the right skills needed to match the current needs of the market. Lastly, disaster and humanitarian relief remains close to our heart as a network. We have persisted in our proactive and reactive support towards the major natural disasters and disaster prone geographies. Taking inspiration from our boosted impact and with the vision to mobilize the caring power of many more communities, I am pleased to say that we are launching a new United Way Chapter in Ahmedabad to continue our efforts in new geographies.

As we get ready for the launch of our major donor platform through the 'Tagore Society', we aim at engaging individual philanthropists to add scale to our work and also invest further in digital tools and technology to strengthen our offering. We shall also continue to focus on building upon our governance and compliance framework. With a strong network and the collective support of our partners, we are truly in a position to deliver on the ambitious goals we've set for ourselves. I am truly proud of all that we have achieved and am very excited for all that lies ahead.

Great things happen when we LIVE UNITED!

Sincerely,
Saleem Khan
Chief Executive Officer
United Way of India

United Way of India
WHO WE ARE

United Way India is a part of the United Way Worldwide network and is a registered non-profit in India. UWI aims at advancing the common good through its various local programs and initiatives in the areas of health, education, livelihood and disaster relief.

We envision a world where every community is a strong one, with jobs that pay a livable wage, good schools and a healthy environment. We engage people and organizations in innovative solutions that are transforming that vision into reality.

Based in Mumbai, the role of United Way India is to lead all our nation-wide initiatives and support our local chapters in order for them to create the most impact in the communities they serve!

Our chapters are present in the locations below:

- BARODA
- MUMBAI
- DELHI
- HYDERABAD
- BENGALURU
- CHENNAI
- KOLKATA

Why United Way?

United Way India envisions a world where every individual has an opportunity to succeed, and entire communities thrive as a result.

MISSION

Our Mission is to improve lives by mobilizing the caring power of communities across India to advance the common good.

United Way India envisions a stronger India where all individuals and families achieve their human potential through education, income stability and healthy lives. We strive to lead the way in impactful philanthropy for building sustainable communities.
MISSION
Our Mission is to improve lives by mobilizing the caring power of communities across India to advance the common good.

United Way India envisions a stronger India where all individuals and families achieve their human potential through education, income stability and healthy lives. We strive to lead the way in impactful philanthropy for building sustainable communities.

United Way India envisions a world where every individual has an opportunity to succeed, and entire communities thrive as a result.

COLLECTIVE IMPACT
United Way brings together all stakeholders in each community: NGOs, governments, individuals and corporates, to respond collectively to complex social issues.

THINKING GLOBAL, ACTING LOCAL
United Way offers on the ground knowledge about each community's specific and most pressing needs in over 40 countries and territories where United Way has a presence. Resources are raised locally and invested in the local community.

PURSUING LONG LASTING CHANGE
United Way addresses the root causes and works toward long-term sustainable change.

BEING THE CSR PARTNER OF CHOICE
United Way supports companies in their philanthropy efforts designed to address social issues through directed corporate grants.

DRIVING NATIONAL PROGRAMS
United Way India's perspective is to drive high impact programs at the national level and scale up locally-run programs that have a strong community impact in the areas of education, livelihood, health, environment and disaster response.

MEASURING OUTCOMES
Outcome measurement is a critical part of United Way's methodology to strengthen programs and effectively communicate results.
Generation United is a skill development program for unemployed youth between the ages of 18-29 years. The program is a partnership between United Way India and the Generation India, a nonprofit founded by McKinsey and Company in 2014. Generation United is a youth skilling and employment program targeting unemployed young adults (of age groups of 18-29). It seeks to address the dual paradox of global unemployment where on one hand, there are 75 million youth unemployed globally and on the other, 40% of employers experience skills shortage at the entry level. Within ~3.5 years, Generation is already the world’s largest demand-driven skilling initiative with 20,000+ students enrolled globally. It seeks to create employment opportunities for 1 million young adults across 10 countries (US, Spain, India, Kenya, Mexico, Australia, Pakistan, Singapore, Hong Kong and the UK) over the next five years. In India, Generation United is present in 3 roles: certified General Duty Assistants (GDAs)/home healthcare aides, Food & Beverage (F&B) steward associates and Home Beauty Therapists. These professions have the potential for structured career paths while at the same time face challenges with respect to the right skills and high attrition rates.

Generation has a pan-India presence across 25 cities from where students are mobilized; of which 7 are demand centres where students are placed. The 7 demand cities are Delhi-NCR, Bangalore, Hyderabad, Chennai, Jaipur, Mumbai and Kolkata. Generation in India has trained 7,000+ students enrolled across 35 training centres; of which 5,400+ candidates have graduated.

332 graduates successfully trained out of 425 enrolled

92+% job attainment rate within 30 days

4 city trainings conducted

3 chapters worked in Delhi, Hyderabad and Chennai

7 campuses for F&B, GDA and HNA roles

Placements of our learners

40% salary saved by learners to further help support their families

70% graduates being females and all placed in well paying career paths

80% graduation rate

70% placement

F&B

GDA / HNA

Skill Development - Generation United

**BORN LEARNING**

The Born Learning campaign is one of the most sought-after programs of the United Way India network. Led by United Way Bengaluru as the Centre of Excellence, the program works towards the overall development of children between 0-6 years of age by transforming Anganwadis (government pre-school centres) through a well-rounded approach with specific objectives. United Way Bengaluru in partnership with the Department of Women and Child Development has initiated programs in selected urban and peri-urban Anganwadis with the aim of adding value to the existing facilities and activities.

Many studies over the years have found that child development from 0-6 years is the most crucial and lays the foundation for the future of a child, and it is with this vision that the Born learning campaign came into existence. Born Learning looks to bridge the gaps in early childhood care and education by providing a stimulating learning environment and building the collaborative capacity of Anganwadi teachers and parents. The Born learning campaign is implemented with the support and expertise of its NGO partners.

**OBJECTIVES**

- **Conducive Learning Environment**
  To ensure access to a safe, attractive and conducive learning environment for children in the Anganwadis

- **Enhanced Pre-school Learning**
  To enhance the pre-school learning in the Anganwadis for children (3-6 years old) to bring about school readiness in them

- **Active Community Involvement**
  To engage and involve actively the community stakeholders, specifically - the parent groups in the development process of the child

**PROJECT REACH**

### Boys and Girls Enrolled

- **0-3 years**
  - Surveyed → 1,449
  - Enrolled → 864

- **3-6 years**
  - Surveyed → 900
  - Enrolled → 462

- Surveyed → 30
- Enrolled → 4,556

### Children enrolled in Anganwadi Centres (3-6 years)

- Surveyed → 900
- Enrolled → 30

### Anganwadi teachers

- Surveyed → 0-3 years: 838
  - Enrolled → 438

- Surveyed → 3-6 years: 1,369
  - Enrolled → 774
**DISASTER RELIEF**

United Way India has always been a frontrunner when it comes to proactively responding to many of India’s major calamities. From leveraging our ability to mobilize resources from our individual donors as well as our corporate partners, we have a comprehensive and holistic approach to disaster management, with a focus on immediate, mid-term and long-term relief and rehabilitation, along with community building.

We work at identifying credible NGO partners for on-ground implementation after thorough due diligence of their past work and performance, legal compliances, etc. We then conduct a needs assessment of the affected communities including consulting with the government and local organizations. United Way India, though its chapters tracks the progress of its interventions by ensuring seamless collaboration between our NGO partners, volunteer agencies and local government agencies.

Since India was witness to fewer natural disasters this year, United Way India mobilized INR 1.6 crores primarily directed towards disaster preparedness projects. Through the United Way Disaster Response Fund (UWDRF), we have supported a total of 8 interventions spanning 4 states, namely, Jammu and Kashmir, Uttarakhand, Bihar and Assam. Most recently United Way India has been deeply involved and has carried out a number of needs assessments for flood affected communities in Kerala and Karnataka. Our interventions focus on the essentials such as Education, WASH, Disability, Non-food items, Livelihoods, Health, Shelter and Sanitation, thereby impacting more than 11,296 direct beneficiaries.

**IMPACT SUMMARY**

11,296 Lives Impacted
6 NGOs Supported
38 Donors
INR 1.6 crs Funds Mobilized

Interventions across 4 disaster affected states:
- Jammu & Kashmir, Uttarakhand, Bihar, Assam

Interventions across 3 themes:
- Education, WASH, Disability

Interventions across 3 phases of disaster cycle:
- Immediate and Mid-term Response
- Long-term Rehabilitation
- Disaster Preparedness

**WASH**

- 335 TOILETS CONSTRUCTED
- 7 RAISED HAND-PUMPS CONSTRUCTED

**EDUCATION**

- 49 SCHOOLS IMPACTED
- 1,171 CHILDREN REACHED OUT TO

**AWARENESS AND TRAINING**

- 691 CITIZENS IMPACTED

**DISABILITY**

- 102 DISABLED CHILDREN SUPPORTED
9,47,077 Lives Impacted
2,964 NGOs Supported
8,889 Volunteers
32,882 Volunteering Hours

ENVIRONMENT

30,620 TREES PLANTED
19 LAKES REJUVENATED
**EDUCATION**

- **421** Schools Impacted
- **15,452** Hours of Learning Sessions
- **19,357** Children with Improved Learning Levels
- **88,852** Mothers and Children Impacted
- **31,319** Mid-Day Meals Provided

**LIVELIHOOD**

- **7,007** Students Trained in Vocational Training Programs
- **4,521** Jobs Created

**HEALTH AND SANITATION**

- **1,16,550** People Benefitting from Health Clinics and Treatment
- **3,13,442** Citizens Made Aware
- **96** Toilets Constructed
### Public Safety
- Safe Rider Training sessions conducted: 167
- Individuals benefited from WASH training: 505
- Families received increased access to clean drinking water: 475
- Drought-stricken individuals provided clean drinking water: 68
- School children with improved access to WASH infrastructure: 3,500
- Sanitation facilities constructed: 554

### Institutions/Groups
- College groups, community groups engaged through the United for Road Safety Campaign: 277
- Young adults engaged through safe rider training and annual event/competition: 2,874

### Sanitation
- Sanitation facilities constructed: 68
- Toilet seats: 24
- Urinals: 36
- Hand washing stations: 4
- Drinking water stations: 4
- Families provided clean drinking water for one month: 698
- School children provided improved access to WASH infrastructure and WASH education & sensitization: 6

**MUMBAI**
3+ lakhs Lives Impacted
