United Way India

### OUR COMMITMENT TO EQUITY

We unequivocally denounce all forms of ethnic, caste, racial, religion, social and economic discrimination. They undermine the well-being and vitality of our community. United Way network in India strives to engage members whose voices have traditionally been marginalized. We work with communities to co-create solutions that ensure that everyone has the resources, support, opportunities and network that they need to thrive, thereby creating more equitable communities.

Adopted and approved by United Way India Board in June 2022
